Dear Mike,

I would like to express my appreciation to you and your staff at Ceiling Systems for being a valuable member of the Duke team. Your attention to detail and professionalism in dealing with hard issues has made our job so much easier.

I personally wanted to recognize your work on the Diba Shoes tenant fit up in which you were able to creatively provide us cost efficient alternatives for implementing the newly adopted IBC seismic code requirements.

Please do not hesitate to have any of your future customers call me for a reference.

Keep up the great work and I look forward to our next project together.

Sincerely,

Keith Cohen
